### Biography

Barbara serves as an Immigration Case Manager, supporting clients and attorneys across the Immigration practice. She brings more than 15 years of experience in roles that closely parallel the demands of immigration case management: coordinating complex, deadline-driven processes across large organizations; managing compliance communication on behalf of legal and executive teams; and translating regulatory requirements into clear, actionable guidance for diverse audiences.

Barbara's background includes direct collaboration with legal departments at a Fortune 500 retailer, a major financial services institution, and a global legal and information services company — serving as a trusted liaison between legal, compliance, and operational teams under regulatory scrutiny. Her experience coordinating cross-cultural communication across more than 60 countries gives her particular fluency in the international dimensions of corporate immigration work, and her capacity for managing complex, multi-party compliance processes with precision translates directly to supporting immigration clients through the procedural and documentation demands of their cases.

### Education

University of Denver, M.B.A., International Management

University of St. Thomas, B.A., Journalism
