Health Care Transactions

We provide a variety of transactional services to our clients within the health care industry, such as hospitals and physician groups, specialty providers, health plans, insurers, third-party administrators, for-profit and not-for-profit organizations, medical device and technology companies, and other health industry organizations seeking to expand or change their business relationships. We have assisted our clients in complex transactions involving group purchasing contracts, acquisitions, joint venture arrangements, significant health information technology purchases, and the development of standard contracting templates for our health care clients to utilize in contracting with providers and vendors, and for use within RFP processes.
