Education and Training

We have extensive experience counseling clients who work in the highly regulated health care industry on interactions with State and Federal regulatory agencies, such as CMS, the Office of Inspector General, State Medicaid authorities, State Departments of Insurance and State Attorneys General. We also have extensive experience representing all types of health care providers in state licensing board actions and investigations. Members of our Firm's health care legal team have served in the State Attorney General's Office, and our enforcement side experience gives us unique and valuable insight in representing clients before state and federal regulatory agencies and licensing boards.
